OUR COMMITMENT FOR MAXIMIZING EXAM AUTHENTICITY AND CONTINUITY

ABOUT THE CLIENT

The University is one of the premier universities in India. It is a private deemed university campus, one of the 4 campuses of the main University. It opened in 2008 with the first batch graduating in 2012.

The University has a remarkable placement record and most students have their careers charted out well before they complete graduation. It works with and provides consultancy to the Government as well as Industry through its many R&D centers. It also invites motivated and research- focused faculty with an outstanding academic background, and potential to excel in research.

PROBLEM STATEMENT

The drive for the University started in May 2020. The University conducts a program that targets at the working professionals. The program has assessments that candidates need to attempt at various stages. Previously, the candidates appeared for these examinations at test centers, which was a hassle looking at busy schedules and travel/stay cost of working professionals. The University wanted to use e-Assessment as a technology option to carry out exams and evaluation of students' answer scripts in order to simplify the evaluation process while reducing cycle time and evaluation costs. With e-Assessment, it intends to expand its reach to students for conducting examinations, as well as achieve the scalability to accommodate increased volumes of students and reduce the burden on them, meanwhile improving the TAT and overall process.

There were three major concerns of the University:
1. To conduct examinations for the Program Courses
2. Real-time monitoring of exams from home
3. To ensure the sanctity of online exams

ABOUT US

We are a Global Online Talent Assessment Company empowering businesses, academic institutions, sector skills councils, and the government with deep talent insights, while also enabling better hiring and development decisions. Through our robust, highly secured, and certified test engine – enriched with advanced analytics, is highly interactive, and has intelligent assessment tools – we drive great business results and people ROI for our customers. Wheebox offers a highly customized, scalable, and advanced AI-Driven platform to assess talents. Wheebox brings powerful and customizable solutions in time to help deliver any type of online examination certified by CERT-In (National Agency for Cyber Security), for application security, that helps educational organizations identify & build cost-effective online examinations with higher accuracy enabling them to conduct the desired online examinations.

SOLUTION

Wheebox ensured examinations at the comfort of home, with proper security and displayed the advanced face tracking mechanism and object detection.
1. Exams were conducted across the globe on time using the Wheebox Remote Proctored Assessment Solution
2. Approximately 20K working professionals appeared for over 2.5L exams in 10 months' time with real-time, AI-powered remote proctoring of the candidates.
3. With Wheebox, the assessment for this program is now always conducted online and the number of the participants has more than doubled.

PROCESS

1. Product manual and training were provided by Wheebox for creating Question bank and test sets using the Wheebox Access Control (WAC) application.
2. Product manual and training were provided by Wheebox for test evaluation process on the WAC application.
3. Wheebox provided training workshop for designated SPOCs and Admins and explained to them all the modes (proctored & non-proctored) of exams that were to be conducted using the Wheebox platform.
4. For pilot, Wheebox provided a custom landing page in agreement with the University. Admin IDs were set-up for admins to access WAC and Wheebox Analytics Tool (WAT) platforms.
5. User Registration process was agreed upon, and the access to Wheebox Test Engine (WET) was provided to the registered candidates.
6. Help Desk Support Resource Co-ordinates and Escalation matrix were shared. Full tech support was also provided during the exam schedules.
