Open Questions?

Online learning is happening, what about online assessments?	How can we convert most of our offline exams to objective assessments?	How can we conduct the subjective tests online & upload images?
How to ensure the same level of rigor and monitoring for high stake exams?	How can we digitize pen & paper assignments?	Is there a single platform for entrance exams, document verification and assessment-based admissions?
How can we generate meaningful insights for each assessment and students?	How can we have one view for all the exams; a student takes?	How to ensure a seamless experience across the existing applications – LMS, ERP etc.?

Wheebox Remote Proctoring Solutions

Wheebox has three methods of proctoring solutions

## AUTO PROCTORED USING MICROSOFT AI COGNITIVE SERVICES

We use Microsoft AI & ML based face recognition tool, to authenticate the candidate's identity along with tracking the movement of the candidate during the examination. System can auto submit the exam, if the assigned number of warnings are exceeded by the candidate.

REMOTE PROCTORED ASSESSMENT SOLUTION

We use remote authentication and proctoring of the candidates along with AI tool to track the movement of the candidate during the examination. System or the Proctor can pause the test or can end the exam, or we can have an automated submission of the exam, if assigned number of warnings are exceeded.

IMAGE AND VIDEO PROCTORED SOLUTION
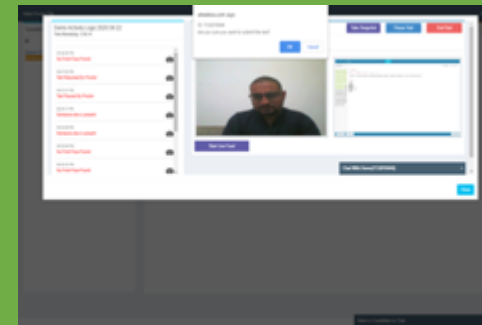

We can randomly or set a time frame to click images of the candidate and exam window along with audio & video of the candidate, which is saved in the system for audit at a later stage.

- ❖ Image Proctoring
- ❖ Video Proctoring
- ❖ Face Tracking
- ❖ Face Recognition
- ❖ Live Proctoring
- ❖ Cognitive Analytics
- ❖ Device Detection
- ❖ Noise Detection
